## DETAILED ACTION

### Election/Restrictions

1. Upon further consideration, the following patentably distinct species of the claimed invention have been identified:

*Species I* (claims 1-10 and 21-34), drawn to an analyzer comprising a test element storage container and a transport device being included into an evaluation instrument;

*Species II* (claims 11-20 and 28-30), drawn to an analyzer comprising a test element storage container and a transport ['gripping'] device being arranged outside an evaluation instrument, and a test element frame having diameter 'increasing from the gripping rim in both spatial directions running vertical to the test field plane';

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1743

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
